

Hamмам

In search of profound well-being, in a relaxing, sensual atmosphere rich in history and emotion. The Hammam is an intimate, secret place where the body and spirit can be restored, where one can abandon oneself and take pleasure in the care of the body amid swirling steam and heady perfumes. Moist and warm polished ceramic tiles. Shifting colours. Sophisticated, patterned mosaics with decorative edges. Relief surfaces, chiselled effects and perforations reminiscent of the opulence of ancient Constantinople. Golden motifs or gold leaf applications.
